EXTRACURRICULAR ACTIVITIES AND STUDENT DRIVER RANDOM DRUG TESTING PROGRAM

A STATEMENT OF NEED AND PURPOSE
Through driving or participation in extra curricular activities, students using illegal drugs pose a threat to their own health and safety, as well as to that of other students. The purpose of this program is three fold: (1) to provide for the health and safety of students; (2) to undermine the effects of peer pressure by providing a legitimate reason for students to refuse to use illegal drugs; and (3) to encourage students who use drugs to participate in drug treatment programs. Students involved in extracurricular activities need to be exemplary in the eyes of the community and other students. It is further the purpose of this program to prevent students from driving to and from school or participating in extracurricular activities while he/she has drug residues in his/her body, and it is the purpose of this program to educate, help, and direct students away from drug and alcohol abuse and toward a healthy and drug free lifestyle. The program is non-punitive. It is designed to create a safe, drug free, environment for students and assist them in getting help when needed. No student shall be expelled or suspended from school as result of any verified “positive” test conducted by his/her school under this program other than stated therein.

INTRODUCTION
The effective date of this program is July 1, 2008. This program does not affect the current policies, practices, or rights of Seymour Community School Corporation with drug and/or alcohol possession or use, where reasonable suspicion is obtained by means other than drug testing through this policy. The Seymour Community School Corporation reserves the right to test any student who at any time exhibits cause for reasonable suspicion of drug and/or alcohol usage.

REASONABLE CONCERN
The Seymour Community School Corporation has a strong commitment to the health, safety and welfare of its students. Our commitment to maintaining the extracurricular activities in the Seymour Community School Corporation as a safe and secure educational environment requires a clear policy and supportive programs relating to detection, treatment, and prevention of substance abuse by students involved in extracurricular activities.

SCOPE
Participation in extracurricular activities is a privilege. This policy applies to all Seymour Community School students in grades 9-12 who wish to participate in extracurricular activities that are listed in the current student handbook and any other school sponsored extracurricular activities not listed. It also includes any student who wishes to drive to school, from school, or during school.

CONSENT FORM
It is MANDATORY that each student who participates in extracurricular activities or drives to or from school sign and return the “consent form” prior to participation in any extracurricular
activity. Failure to comply will result in non-participation and/or no issue of a student driving permit to school.

At the beginning of each selection date, school year or sport season, as determined by the Indiana High School Athletic Association, or when a student moves into the District and joins an activity, all students wishing to participate in that season’s sports or activities will be subject to urine testing for illicit or banned substances during regular school hours. Up to 10% of eligible students may be randomly tested on up to a weekly basis anytime during the school year. Any student who refuses to submit to urine drug testing will not be allowed to practice or participate in designated extracurricular Seymour Community School activities or drive.

Each student shall be provided with a “consent form”, which shall be dated and signed by the participant and by the parent/guardian. In so doing, the student is agreeing to participate in the random drug testing program at Seymour Community School Corporation.

NON-PUNITIVE NATURE OF POLICY
No student will be penalized academically for testing positive for illegal drugs or banned substances under this policy. The results of drug tests pursuant to this policy will not be documented in any student’s academic records. Information regarding the results of drug tests will not be disclosed to criminal or juvenile authorities absent legal compulsion by valid and binding subpoena or other legal process, which the Seymour Community School Corporation Board of Education will not solicit. In the event of service of any such subpoena or legal process, the student and the student’s custodial parent, legal guardian, or custodian will be notified at least 72 hours before response is made by the Seymour Community School Corporation Board of Education, to the extent permitted by such subpoena or legal process.

NON-ACADEMIC DISCIPLINE
A student involved in extracurricular activities who tests positive will be subject to the disciplinary consequences listed as follows: (1) Athletic Department Code of Conduct; (2) Student Activities Code of Conduct; and Student Drivers. (See Appendix A)

APPEAL PROCESS
A student or parent may appeal the drug testing results and/or the disciplinary action through a written appeal to the Superintendent of Schools.

BANNED SUBSTANCES
For the purpose of this Policy, the following substances or their metabolites that can be tested for are considered illicit or banned for Seymour Community School Corporation students.

<table>
<thead>
<tr>
<th>Alcohol</th>
<th>Amphetamines</th>
<th>Anabolic Steroids</th>
</tr>

TEST RESULTS

(1) This program seeks to provide needed help for students who have a verified “positive” test. The student’s health, welfare, and safety will be the reason for preventing students from participation in extracurricular activities and restrict him/her from driving to or from school.

(2) The principal/designee will be notified of a student testing “positive” (that is, if the test shows that drug residues are in the student’s system after using at least two different types of analyses). The principal/designee will notify the student and his/her parent/guardian. The student or his/her parent/guardian may submit any documented prescription, explanation, or information which will be considered in determining whether a “positive” test has been satisfactorily explained.

(3) If the test is verified “positive”, the principal/designee will meet with the student and his/her parent/guardian at a school corporation facility. The student and parent/guardian will be given the names of counseling and assistance agencies that the family may want to contact for help.

A student involved in athletics who tests positive will be subject to the disciplinary consequences outlined in the Athletic Department Code of Conduct. A student involved in non-athletic extracurricular activities will be subject to the disciplinary consequences outlined in the Student Activities Code of Conduct. A student driver who tests positive for alcohol will have his/her driving privileges suspended for six weeks. A student driver who tests positive for banned substances other than tobacco and alcohol will lose his/her driving privileges for nine-weeks or the remainder of the semester, whichever is longer. (See Appendix A)

A “follow up” test will be requested by the principal/designee after the suspension period and after such an interval of time that the substance previously found would normally have been eliminated from the body. If this “follow up” test is negative, the student will be allowed to resume extracurricular activities and/or driving. If a second “positive” result is obtained from the “follow up” test, or any later test of that participant, the same previous procedure for communication with the student and parent/guardian shall be followed. Discipline for initial and subsequent positive tests shall be applied as outlined in the Athletic Department Code of Conduct, Student Activities Code of Conduct, and discipline for student drivers (See Appendix A). In addition, the Seymour Community School Corporation reserves the right to continue testing at any time during the remaining school year any participating student who tested “positive” and did not make satisfactory explanation.

(4) Information on a verified “positive” test result will be shared on a “need to know” basis with the student’s coach or sponsor. The results of “negative” tests will be kept confidential to protect the identity of all students being tested.

(5) Drug testing results sheets will be returned to the principal/designee identifying students by number and not by name. Names of students tested will not be kept in open files or on
any computer. Result sheets will be locked and secured in a location that only the principal/designee has access to.

STATISTICAL REPORTING AND CONFIDENTIALITY OF DRUG TEST RESULTS
The testing laboratory may not release any statistics on the rate of positive drug tests to any person, organization, news publication or media without expressed written consent of the Seymour Community School Corporation Board of Education. However, the lab will provide the Building Principal with a quarterly report showing the number of tests performed, rate of positive and negative tests, and what substances were found in the positive urine specimens.

FINANCIAL RESPONSIBILITY
(1) Under this policy, Seymour Community School Corporation will pay for all initial random drug tests, all initial reasonable suspicion drug tests, and all initial “follow up” drug tests. (Once a student has a verified “positive” test result and has subsequently tested negative from a “follow up” test, any future “follow up” drug test that must be conducted will be paid for by the student or his/her parent/guardian.

(2) A request on appeal for another test of a “positive” urine specimen is the financial responsibility of the student or his/her parent/guardian.

(3) Counseling and subsequent treatment by non-school agencies is the financial responsibility of the student or his/her parent/guardian.

(4) A request by a parent/guardian/student to be tested by passing being drawn from the pool, will be the responsibility of the student or his/her parent/guardian.

CONFIDENTIALITY
Under this drug testing program, any staff, coach, or sponsor of Seymour Community School Corporation who may have knowledge of the results of a drug test will not divulge to anyone the results of the test of the disposition of the student involved, other than in the case of a legal subpoena being made upon that person in the course of a legal investigation. Once again, this will underscore the Seymour Community School Corporation commitment to confidentiality with regards to the program.

OTHER RULES
Apart from this drug testing program, Seymour Community High School Athletic Department and the coaching staff/sponsor of each sport/activity have their own training rules and requirements. Coaches/sponsors have the necessary authority to enforce those rules. Any student who violates a rule or requirement as a member of a team or activity will be subject to the consequences as defined in those rules and requirements.

TESTING PROCEDURES
1. The selection of participants to be tested will be done randomly by the principal/designee, and selections will be made from time to time throughout the school year. Names will be drawn from one large pool of those agreeing to be tested. Testing may occur on a different day, Monday through Friday. Testing will occur during regular school hours. This variable schedule will keep students conscious of the possibility of being tested at any time during the year. Each student will be assigned a number that will be placed in the drawing. The principal/designee will use a system to assure that students are selected in a random fashion. This system will utilize a computer-based system designed specifically for the purpose of randomly selecting individuals for drug testing.

2. If the student shows signs of reasonable suspicion, the principal/administrative designee may call the student’s parent/guardian and ask that the student be tested. Factors will include, but are not limited to, excessive discipline problems and/or excessive absences from school. Also, a parent/guardian may request that his/her student’s name be placed in the pool.

3. No student will be given advance notice or early warning of the testing. In addition, a strict chain of custody will be enforced to eliminate invalid tests or outside influences.

4. Upon being selected for a urinalysis test under this policy, either by random draw, reasonable suspicion, request of a parent/guardian, or a “follow-up” test, a student will be required to provide a sample of “fresh” urine according to the quality control standards and policy of the laboratory conducting the urinalysis.

5. All students will remain under school supervision until they have produced an adequate urine specimen. If unable to produce a specimen, the student will be given up to 24 ounces of fluid. If still unable to produce a specimen within two hours, the student will be taken to the principal’s office and told he/she is no longer eligible for any of the extracurricular activities. In addition, the parents/guardian will be telephoned and informed the student is unable to produce a sample for the testing procedure and that he/she may be tested at a later date to be reinstated for eligibility.

6. All specimens registering below 90.5 degrees or above 99.8 degrees Fahrenheit will be invalid. There is a heat strip on each of the specimen bottles indicating the validity of the urine specimen by temperature. If this occurs, another specimen must be given by the student.

7. If it is proven that tampering or cheating has occurred during the collection, the student will become ineligible for all the “extracurricular activities” for the remainder of the school year. This will be reported to the parent/guardian.

8. Immediately after the specimen is taken, the student may return to class with an admit slip or pass with the time he/she left the collection site. The principal/designee must time and sign the pass.
The specimens will then be turned over to the testing laboratory, and each specimen will be tested for alcohol, nicotine, and “street drugs” (which may include all drugs listed as controlled substances under the laws of the state of Indiana). Also “performance enhancing” drugs such as steroids may be tested.

The laboratory selected must follow the standards set by the Department of Health and Human Services. It must be certified under the auspices of the Clinical Laboratory Improvement Act (CLIA) and the Joint Commission of Accreditation of Healthcare Organizations (JCAHO).

CHAIN OF CUSTODY

1. The certified laboratory will provide training and direction to those who supervise the testing program, set up the collection environment, and guarantee specimens and supervise the chain-of-custody. To maintain anonymity, the student’s number, not name, will be used.

2. The principal/designee will be responsible for escorting students to the collection site. The student should bring all materials with him/her to the collection site and should not be allowed to go to his/her locker. (The administrator should not bring all the students drawn from the pool to the collection site simultaneously. Calling four or five students at a time allows the collections to be carried out quickly and will not cause students to wait a long time, thereby creating a loss of important time from class. Athletes may be called after school, perhaps during practice time.)

3. Before the student’s urine is tested by the laboratory, students will agree to fill out, sign and date any form which may be required by the testing laboratory. If a student chooses, he/she may notify the administrator that he/she is taking a prescription medication.

4. A sanitized kit containing a specimen bottle will be given to each student. The bottle will remain in the student’s possession until a seal is placed upon the bottle. The student will sign that the specimen has been sealed. The seal may be broken only by the lab testing the specimen.

5. If the seal is tampered with or broken, after leaving the student’s possession and prior to arriving at the lab, the specimen is invalid. The student will be called again as soon as possible. The student will remain eligible for extracurricular activities subsequent to a retest.

6. The supervisor obtaining the urine specimen will be of the same gender as the student. Students will be instructed to remove all coats and wash their hands in the presence of the supervisor prior to entering the restroom. The door will be closed so that the student is by himself/herself in the restroom to provide a urine specimen. The supervisor will wait outside the restroom. The student will have two minutes to produce a urine specimen.
The commode will contain a blue dye so the water cannot be used to dilute the sample. The faucets in the restroom will be shut off.

(7) After it has been sealed, the specimen will be transported to the testing laboratory by lab personnel. The testing laboratory will report the results back to the principal/designee.

(8) In order to maintain confidentiality, the container which contains the urine specimen to be tested will not have the name of the student on the container. Instead the student’s random identification number will appear on the container. Also, the result sheet for the urinalysis will be mailed back to the principal/designee with no name attached; only the student’s random identification number will appear on the result sheet.

COLLECTION PROCESS

Selected student athletes report from class to the collection site. A specimen of urine is collected following this process:

   a. Student first is asked to wash their hands with soap and water and dry them.
   b. No purses, bags or containers may be taken into the collection area with the student. All extra coats, vests, jackets, sweaters, etc., are to be removed before entering the collection area.
   c. The drug testing custody and control form is completed by the Student and collector.
   d. The collector prepares the urine bottles by placing the temperature sticker on the side of the bottles.
   e. The collector adds a blueing agent (food coloring) to the water in the urinal or toilet.
   f. The student is told to urinate directly into the provided container and should provide a sufficient amount of urine (45 ml) in one attempt. The student is also told they are to hand the container of urine to the collector.
   g. The student steps up to the urinal or enters the stall to collect the specimen, then hands the container to the collector. The student may then rewash their hands.
   h. With the student watching, the collector will recap the specimen bottles tightly.
   i. The collector checks the volume, reads the records the temperature within four minutes of collection, and looks for evidence of tampering. If tampering is suspected, a second specimen will be requested. A second suspected tampered specimen will be considered refusal to test and the Principal notified.
   j. The collector takes the properly signed and initialed bottle seals and places them over the caps and sides of the bottles.
   k. The student is asked to initial the transport bag.
   l. The sealed bottles are placed inside the transport bag and the top sealed as directed.
   m. The top lab copies of the drug testing custody and control form are folded
with the top portion visible to the outside and placed in the Requisition Pouch. This pouch is then sealed as indicated. The student is given the donor copy of the form.

n. While the student watches, the sealed specimen bag is carried to a secured storage area.

o. The Student is then sent back to class.

p. The collector distributes the remaining copies of the form as required, being responsible for getting the appropriate copy of the form to the Certifying Scientist in a timely manner.

q. The Principal will be notified immediately of any student who refuses to give a urine sample.

CERTIFYING SCIENTIST RESPONSIBILITIES

The Certifying Scientist will review all results of urine drug testing. Any urine specimen testing positive for illicit or banned substances will be handled in the following manner:

a. The Certifying Scientist determines if any discrepancies have occurred in the Chain of Custody.

b. Depending on the substances found in the urine, if necessary the Certifying Scientist will contact the parent/guardian/custodian to determine if the student is on any prescribed medication from a physician.

c. If the student is on medication, the parent/guardian/custodian will be asked to obtain a letter from the prescribing physician, with five working days, to document what medications the student is currently taking. Failure to provide such requested information will be considered a positive result.

d. The Certifying Scientist will then determine if any of the prescribed medications resulted in the positive drug screen.

e. Finally, the Certifying Scientist, based on the information given, will certify the drug test results as positive or negative and report this to the Building Principal, initially reporting positive results by phone. The Certifying Scientist will also notify the Prevention Coordinator that a drug test returned positive giving only the dates of the collection and reporting.

(1) For example, a drug screen positive for codeine my be ruled negative by the Certifying Scientist when he receives a letter from the treating physician that the student has been prescribed Tylenol with codeine as a pain medication following tooth extraction.

(2) Or, if the student has a positive drug screen for codeine and has no documented physician order for the medication (maybe a parent gave the student one of their pills), this would likely be ruled a positive drug test by the Certifying Scientist.

(3) Drug screens positive for illicit drugs (marijuana, heroin, cocaine or alcohol, etc.) would automatically be considered positive by the Certifying Scientist.
f. The Certifying Scientist may use quantitative results to determine if positive results on repeat tests indicated recent use of illicit or banned substances or the natural decline of levels of the illicit or banned substance from the body. If the Certifying Scientist feels the quantitative levels determined to be above the established cutoffs do not reflect current use but natural decay, then a negative results may be reported.

g. The Certifying Scientist will complete the final review on the drug testing custody and control form and return the appropriate copy to the Building Principal in a confidential manner.

PICK-UP PROCESS

The Vendor is responsible for seeing that specimens are delivered to or picked up by the testing laboratory and the Chain of Custody form properly annotated.
EXTRACURRICULAR ACTIVITIES AND STUDENT DRIVER RANDOM DRUG TESTING PROGRAM

EXTRACURRICULAR CONSENT FORM

I have received and have read and understand a copy of the ‘Seymour Community School Corporation Extracurricular Activities Drug Testing Program’, including non-academic disciplinary procedures under the Seymour High School Athletic Department Code of Conduct, the Student Activities Code of Conduct, and for student drivers. I desire that __________________________ participate in this program, and in the extracurricular program of Seymour Community School Corporation, and hereby, voluntarily agree to be subject to its terms for the entire high school career (grades 9 – 12). I accept the method of obtaining urine specimens, testing, and analyses of such specimen, and all other aspects of the program. I agree to cooperate in furnishing urine specimens that may be required from time to time.

I further agree and consent to the disclosure of the sampling, testing, and results provided for this program. This consent is given pursuant to all State and Federal Privacy Statutes, and is a waiver of rights to nondisclosure of such test records and results only to the extent of the disclosures in the program.

Date:________________________________, 19_____

Student Activities Code of Conduct
Non-Athletic Extra Curricular Activity Classifications

**Class A**—Positive test results for participants in these activities will result in a 30 calendar day suspension.

Student Government  
Foreign Language Clubs (Spanish, French, Latin, German)  
National Honor Society  
Key Club  
Renaissance  
CARR Club  
Other extra curricular organizations as determined by the principal and sponsor

**Class B**—Positive results for participants in these activities will result in the following suspensions:

- 20% of the scheduled events/performances/competitions* if there are 5 or more  
- 25% of the scheduled events/performances/competitions if there are 4  
- 33% of the scheduled events/performances/competitions if there are 3  
- 50% of the scheduled events/performances/competitions if there are 2  
- 100% of the scheduled events/performances/competitions if there is 1

BPA  
FFA  
Choir  
Band  
Drama  
Newspaper  
Yearbook  
Academic Teams  
Cheerleading  
Other extra curricular organizations as determined by the principal and sponsor

*Students will be allowed to attend practices during the suspension period. Suspensions not completed in the current season/activity/school year will carry into the next season/activity/school year.

The second confirmed alcohol or drug offense by a student, regardless of the method of its discovery, shall result in a 365 day suspension from all extra curricular activities.

Subject to appeal.

**Athletic Department Code of Conduct**
1<sup>st</sup> Offense—A positive test will result in suspension from 20% of the scheduled contests in which the student would have participated.  

Students will be allowed to attend practices during the suspension period. Suspensions not completed in the current season/activity/school year will carry into the next season/activity/school year.  

The second confirmed alcohol or drug offense by a student, regardless of the method of its discovery, shall result in a 365 day suspension from all extra curricular activities. Subject to appeal.  

Student Drivers  

1<sup>st</sup> Offense—A student driver that tests positive for alcohol will have his/her driving privileges suspended for six (6) weeks—thirty (30) school days.  

A student driver who tests positive for banned substances other than alcohol will have his/her driving privileges suspended for nine (9) weeks—forty-five (45) school days or the remainder of the semester, whichever is longer.  

2<sup>nd</sup> Offense—If a second “positive” result is obtained from the “follow-up” test, or any later test of that participant, the same suspension periods as outlined in the 1<sup>st</sup> offense will be followed—six (6) weeks, thirty (30) school days if the test is positive for alcohol; nine (9) weeks, forty-five (45) school days or the remainder of the semester, whichever is longer, if the test is positive for banned substances other than alcohol.  

Suspensions not completed in the current school year will carry into the next school year. Subject to appeal.
